DETAILED ACTION

Election/Restrictions

1. Claim 13 is withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 11 May 2009.

Priority

2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

3. The disclosure is objected to because of the following informalities: (1) "21" (page 14, line 22) (2nd) should be "20"; and (2) "21" (page 15, line 20) should be "22".
Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. Claims 6 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The cap in claims 6 and 7 each lack antecedent, as the cap is first recited in claim 4 (and claims 6 and 7 each depend from claim 5).

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3727

6. Claims 1,2,4,8,11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 94/21152 ('152). '152 discloses an interdental brush (with particular reference to the embodiment of figure 26) (10) comprising a handle (18), brush body (14), brush support (24), arm (the portion between the hinges 126 and 130) hinged (at 126) to the brush support and an operating portions (including 120) and the attached member hinged (at 128) to the brush support wherein slidable movement of the operating portion along the length of the handle moves the brush support in a range of an 90 degrees. Also, applicant is directed to the written opinion provided for the corresponding PCT application.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 3 and 5 re rejected under 35 U.S.C. 103(a) as being unpatentable over WO 94/21152. With regard to these claims, applicant is again directed to the written opinion.

9. Claims 6,7,9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over WO 94/21152 in view of JP 2000-23749. Use of the cap (3) described in '749 for the brush of '152 would be obvious to one having ordinary skill in the art.
